

- **OVERCOME THE PROBLEMS** of high cost, cross infection risks and health and safety hazards commonly associated with reprocessing reusable LLETZ electrodes.
- **Ultra-Fine™ LLETZ LOOPS** are designed to deliver higher cutting performance with less thermal damage to the sample.
- **2.4mm (3/32") x 10cm shaft** to fit all standard UK, US and European diathermy systems.

**Ultra-Fine™ LLETZ Loops** were the world's first single use loop electrodes designed specially for LLETZ.

**Ultra-Fine™ LLETZ Loops** have been in continuous production for more than 27 years. They continue our tradition of providing exceptional value, reliability and quality

Ultra-Fine™ LLETZ Range	Size		US
<b>Ultra-Fine™ LLETZ Loop,</b> for single use, packed sterile in cartons 25 units	Small	14mm	<b>857800</b>
	Medium	18mm	<b>857801</b>
	Large	22mm	<b>857802</b>
<b>Ultra-Fine™ LLETZ Ball Electrode</b> for single use, packed sterile in cartons 25 units	Standard	5mm	<b>857804</b>
